Total Water Use For Fiscal Year	112,933,300	93,468,190	105,602,230	90,666,189	51,603,640

Grand Total Thermal Water Use Measured by Gallons for FY02-FY05--402,669,909

** Water shut off temporarily due to construction on the Thermal Water Cooling Station.

*** Fountain temporarily closed for upgrade. This fountain uses the hot spring water but is maintained by the city of Hot Springs.

These numbers do not include water use at the two display fountains located in front of the Fordyce Bathhouse, the display fountain located in front of the Park Administration Building, the Cascade at the Arlington Lawn, the Historic Maurice Spring and Dripping Spring, the shell drinking fountain at the Stephen's Balustrade, the Noble and Lamar Springs located behind the Maurice Bathhouse, and the Fordyce Spring located inside the park visitor center (Fordyce Bathhouse).

! Libbey Memorial PMC closed Dec. 31, 2005 for rehabilitation of building
